

Sprinkler Installation or Product Issue Reporting Form

BAFSA has produced this form (which can be downloaded from the webpage: www.basa.org.uk) for the purpose of providing sprinkler industry stakeholders with an opportunity to report faults/issues that will be logged and reviewed by the Association's Technical Committee for any trends or issues which might affect the wider industry.

Examples of issues that could be reported are:-

Any approved products which have given members/stakeholders problems installing, testing, commissioning or maintaining.

Any cases of misuse of the LPS 1048 Scheme or the Certificates of Conformity.

Any issues relating to interpretation of design standards or FAQ's - BAFSA Technical Committee can provide you with a consensus view. etc etc

This weight of evidence will assist BAFSA in its pursuit of excellence at all times and in negotiations with approvals bodies, suppliers, insurers and regulators.
