

SFJ IQ Level 2 Certificate in Fire Sprinkler Installation – Experienced Worker Route

All learning outcomes within the qualification must be achieved and the multiple choice paper passed. The approach for experienced installers is not to be referred to as fast tracking or upskilling but may be more commonly referred to as the Experienced Worker Route (EWR).

Step 1 - Evidence

Select Candidate and gather evidence to support 'industry experience'

(Experience would be expected to be a minimum of 3 years working in the sector undertaken within the last 7 years.)

Step 2 - Register

Register for a course place agreeing to provide the 'evidence of experience' to your selected college ahead of the course commencement date.

Evidence of working within the 'fire sprinkler installation' sector will be required by the College via submission of BAFSA Evidence of Prior Learning Portfolio template.

Payment of course fee to chosen college (expected to be approx. £950 including materials)

Step 3 - College Attendance

Day 1

College Induction, enrolment, H&S

Professional discussion with tutor (individual and group) covering:

Understanding the FSI, Working with others, Communication Skills, Managing Resources, H&S

Day 2

Refresher training/assessment practice/ understanding the assessment procedure and explaining requirements to be undertaken by students prior to their assessments. This is session is required to minimise the risk of any experienced installer 'failing' to achieve'.

Day 3 & 4

Fire Sprinkler Installation & Handover

The practical modules evidencing competency will be independently assessed in College (full details of requirements can be viewed via the Qualification Specification)

Day 5

Awareness of Regulations within the FSI

Following a short BAFSA Masterclass a multiple choice test (15 questions) will be required (mapped to the qualification module). The question bank has been developed by BAFSA and the test will be delivered under exam conditions and marked by the tutor.) An opportunity will be made available for any student who fails the test to resit at a future time (most likely joining in at the end of the next course)

Step 4 - Certification

IQ Certification of evidence required (external verification) and SFJ IQ Certificate in Fire Sprinkler Installation issued

Registration Form

Complete one for each learner

Every box must be completed

I wish to register a candidate for SJF IQ L2 Certificate
in Fire Sprinkler Installation course - EWR
